EXPERIENCE:

2023- 2024 CLIENT- SIDE WEB APPLICATION, LEXICON

Circus Food Restaurant is a real-world academic project for creating a website. In the middle of Stockholm city, there is a new restaurant opening with the ability to watch circus shows. The project starts with a survey and then to design the UI/UX. The whole project is done as an agile team with multiple Sprints using Trello board. The frontend is mainly implemented with HTML and CSS with Bootstrap5 and using Javascript and Jquery as the backend.

Skills used : JavaScript, Jquery, HTML5, CSS3, Bootstrap , Figma, Trello

2023- 2024 FRIEND BOOK, LEXICON

The Friend Book app is a dynamic social networking platform that simplifies connecting with friends. Leveraging the power of Django's web framework, users can effortlessly create profiles, share updates, and stay connected. The app incorporates Django's features for seamless data management, user authentication, and a responsive interface. With Django at its core

Friend Book provides a solid foundation for a user-friendly and feature-rich social networking experience. The project starts with a survey and then to design the UI/UX. The whole project is done as an agile team with multiple Sprints using Trello board. The frontend is mainly implemented with HTML and CSS with Bootstrap5 and using Javascript and Jquery as the backend.

Skills used : Python, Django, JavaScript, Jquery, HTML5, CSS3, Bootstrap , Figma, Trello

2023- 2024 AZURE CLOUDFUNCTION & BLOB STORAGE , LEXICON

Working knowledge of Microsoft Azure Sql Database Creation, Configured in new DBserver & deployed. Published a Web API MVC that can be used for **HTTP** sevices using PAAS.Overview of Cloud Computing & Deployment Models. Understanding of Creating a **function App** in azure portal and Blob Storage.

2015- 2019 DOCUMENT SPECIALIST

I handled and organized various documents. My responsibilities included creating, formatting, and editing documents using word processing software. I ensured the accuracy and completeness of documents, implemented classification and indexing systems, and managed version control for document updates.

Skills used : Ms Office (Ms Word, Ms Powerpoint, Ms Excel)
